

Request for Proposal (RFP) Decision Matrix

Welcome to the instruction page for this file.

This is the PDF version of our Decision Matrix. If you would like to utilize the full Excel version during your review process please call Contract Services Group, Inc. at (800) 732-7236 Ext. 152

This file allows you to evaluate various proposals based on certain user-defined criteria. It also allows you to weigh each criterion that will be considered while evaluating the proposal. The file is set up to review three contractors, but you also have the ability to add more.

It also contains a handout that can be used to take notes by the reviewers.

All cells in grey require manual entry of data.

What is here and how do I use it?

1. The second sheet "Decision Matrix" is where you will find the criteria such as cost, references, etc. on which the proposals will be evaluated. We have entered sample weight for each criterion, but they can be changed by the user. Ratings will be given for each contractor's proposal. Finally, all this data would be used to evaluate the proposals.
2. The third sheet "Graphs" shows a completed graph of your final evaluation.
3. The fourth sheet "Notes" would be used to take minutes of your evaluation meeting, along with the action items.
